Soft skills	Enjoys trying new tools, great team player, attention to detail, critical thinker, good communication skills, ability to find creative solutions to problems, content creation

EXPERIENCE

Software Developer   Mar 2023

Christiania Glasmagasin   *Remote, Norway*

- Collaborated in team of 3 to overhaul e-commerce web app for major Norwegian retailer, migrating from PHP to React/Next.js on GCP Cloud Run. Result: 3x faster load times, improved UX.
- Translated Figma designs into pixel-perfect applications for seamless user interaction.
- Implemented agile methods for timely feature releases and updates.
- Boosted SEO to consistently rank #1 in search results, driving organic traffic
- Actively maintained projects for optimal performance and continuous enhancement.

Software Developer   Mar 2020

Openwaver Company LTD   *Remote, Nigeria*

- Orchestrated the frontend development of two high-profile NFT projects, which collectively generated sales of approximately $30k
- Spearheaded the complete overhaul of the company's website within a 1-month timeframe, modernizing the UI/UX and updating the technology stack, which significantly improved site performance and user satisfaction
- Contributed to the integration of RESTful APIs into frontend operations.
- Excelled in a cross-functional team, delivering 6+ customer-centric web applications, which were pivotal in reducing user onboarding time by 40%.

Senior Frontend Developer   Oct 2022

JustGo Health   *Remote, Ghana*

- Architected and developed high-performance web app using React and Next.js, enhancing user engagement in healthcare management.
- Contributed to design and implementation of tailored healthcare dashboard, optimizing patient record management and workflow efficiency.
- Innovated user onboarding process, reducing signup time by 50% for smoother platform integration.
- Designed custom UI components reflecting JustGo Health's brand identity, boosting overall user experience and accessibility.
- Collaborated closely with designers and project managers to translate mockups into functional user flows, increasing user satisfaction by 30%.
